DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-6, 8-16, 19-22, 24-34 and 36-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-6, 8-16, 19-22, 24-34 and 36-38 are indefinite because it is unclear to the examiner how the claimed invention is configured with a heater below a thermally conductive block (Figures 4) with channels therethrough for the flow of cooling water or liquid and yet the independent claims recite an "electrode surface" and heating elements which implies that current passes through the "electrode surface or "contact surface". The examiner interprets Figures 4 as an electrically insulated heater mounted below the conductive block and heat is thermally conducted to the "contact surface, not an "electrode surface". Clarification is required.

The examiner telephoned Barbara Wrigley on 7/2/2007 for clarification, and she stated none will be forthcoming until after the due date of this Office action or July 9, 2007.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy D. Gibson whose telephone number is 571-272-4767. The examiner can normally be reached on Tu-Th, 7:30 am-4:00 pm.
